Key Projects

Key mobile applications I've designed and developed across multiple domains

LA Clippers + Intuit Dome

- Official mobile app for LA Clippers & Intuit Dome arena experience
- **Role:** Senior iOS Engineer
- Built seamless venue access, ticketing, parking, and in-app commerce experiences
- **Features:** Ticketing, parking access, seat selection, in-app payments
- **iOS (iPhone)** | Swift, SwiftUI, Bluetooth (IoT), Deep Linking/Universal Linking, Notifications
- Supports large-scale live events in a **\$2B arena with 18,000 seating capacity** and real-time fan experience

👉 App Store: [LA Clippers + Intuit Dome](#)

Visit Red Sea

- Luxury travel and tourism platform for Red Sea & AMAALA destinations
- **Role:** Senior iOS Engineer
- Built end-to-end booking flows and personalized trip planning experiences
- **Features:** Resort booking, itinerary planning, activity discovery, transport booking
- **iOS (iPhone)** | Swift, SwiftUI, Apple Pay, Deep Linking, Notifications
- Part of **Saudi Arabia's Vision 2030 initiative**, delivering premium digital travel experiences

👉 App Store: [Visit Red Sea](#)

Wizink Bank

- Digital banking application for European customers
- **Role:** Senior iOS Engineer
- Built secure payment flows, credit card management, and authentication systems
- **Features:** Money transfers, payments, card management, transaction tracking
- **iOS (iPhone)** | Swift, SwiftUI, Biometric Auth (Face ID/Touch ID), Notifications
- Digital-first bank operating across Spain and Portugal, delivering secure and scalable fintech solutions

👉 App Store: [WiZink Bank](#)

Alinea: Personalized Investing

- **YC-backed** personalized investing platform
- **Role:** iOS Engineer (early team member)
- Built onboarding, investment workflows, and social investing features
- **Features:** Portfolio tracking, stock bundles (playlists), social investing, fractional investing
- **iOS (iPhone)** | Swift, SwiftUI, UIKit, Notifications, Plaid
- **2M+ downloads** | **160K+ funded accounts**

👉 App Store: [Alinea – Personalized Investing](#)

Glitter Collages & Art :Glitty

- Photo and video editing app with creative visual effects
- **Role:** Senior iOS Developer
- Built advanced photo editing engine with real-time effects and custom UI interactions
- **Features:** Photo editing, brush effects, sparkle effects, blend modes
- **iOS (iPhone)** | Swift, Core Image, Core Graphics, AVFoundation
- **#1 on US App Store** (Photo & Video category)

👉 App Store: [Glitter Collages & Art :Glitty](#)

Vintage Film Camera: Pixo Cam

- Vintage-style instant camera and photo editing application
- **Role:** Senior iOS Developer
- Built custom camera experience with real-time filters and film-based effects
- **Features:** Instant camera, vintage filters, photo lab, media sharing
- **iOS (iPhone)** | Swift, Core Image, Core Graphics
- Featured with **Apple Editor's Note** on the App Store

👉 App Store: [Vintage Film Camera: Pixo Cam](#)

Winter Garden

- Community engagement app for discovering local events, deals, and businesses
- **Role:** Tech Lead (iOS)
- Led development and implemented iOS–Unity integration for interactive features
- **Features:** Events discovery, promotions, **AR experiences**, media interaction
- **iOS (iPhone & iPad) | Swift, UIKit, Unity (iOS Bridging)**
- Delivered interactive and engaging user experience with **AR and multimedia** features

👉 App Store: [Winter Garden](#)

All Things Girl Scouts

- Community engagement app for Girl Scouts with events, deals, and interactive experiences
- **Role:** Tech Lead (iOS)
- Led development and integrated Unity modules for interactive and AR-based features
- **Features:** Events, scavenger hunts, **AR experiences**, photo editing
- **iOS (iPhone & iPad) | Swift, UIKit, Unity (iOS Bridging)**
- Delivered engaging, interactive experience for community participation and user engagement

👉 App Store: [All Things Girl Scouts](#)

Formzi

- Cloud-based mobile platform for creating custom forms and automating data collection workflows across organizations
- **Role:** iOS Developer
- Built dynamic form-based workflows, enabling real-time and offline data collection for field users
- **Features:** Custom form builder, offline data capture, real-time sync, analytics integration
- **iOS (iPhone & iPad)** | Objective-C, UIKit, SQLite, Core Location, Map
- Enabled organizations to digitize paper-based processes and streamline field data collection with improved efficiency

👉 App Store: [Formzi](#)

Sweeney Kincaid

- Enterprise catalogue and inventory management app for auction operations
- **Role:** iOS Developer
- Built offline-first system with large-scale media handling and real-time data syncing
- **Features:** Inventory management, media uploads, offline storage, real-time sync
- **iOS (iPhone & iPad)** | Swift, Core Data, File Manager, Media Handling
- Handled thousands of records and media files with reliable offline and sync capabilities

👉 Enterprise App ([Private Distribution – Download](#))

i-Witness

- Citizen engagement platform for reporting issues and communicating with local authorities
- **Role:** iOS Developer
- Built location-based reporting system with offline storage and data synchronization
- **Features:** Issue reporting, location tagging, media upload, offline support
- **iOS (iPhone & iPad)** | Objective-C, SQLite, Core Location
- Enabled real-time issue reporting and improved communication between citizens and authorities

👉 App Store: [i-Witness](#)

Checkin

- Enterprise event management platform for booking, operations, and customer management
- **Role:** iOS Developer
- Built booking systems, attendance management, and location-based engagement features
- **Features:** Booking management, attendance tracking, RFID scanning, notifications
- **iOS (iPhone & iPad)** | Swift, UIKit, Core Location, Maps
- Enabled efficient event operations with **real-time tracking** and integrated booking workflows

👉 Website: [Checkin](#)

Other Projects

- **Couchshopr:** On-demand delivery platform with real-time driver tracking
- **ROGi:** Project and job management app with real-time syncing
- **DoooolT.de:** Task management app with time tracking and offline support
- **iLeadMyCity:** Citizen engagement platform for reporting local issues
- **Fun2:** Short-video app with editing, AR effects, and social sharing
- **TapGo!:** Casual reflex game with animations and leaderboard features
- **Petbubs:** Social platform for pet lovers with media sharing and profiles

Career Highlights

- **10+ years** of experience building scalable, high-performance iOS applications
- Expertise in Swift, SwiftUI, UIKit, and modern iOS architectures (MVVM / Clean)
- Experience across fintech, travel, sports, media, and enterprise domains
- Contributed to fintech platform with **2M+ downloads** and **160K+ funded accounts** speed, code quality, and productivity
- Built a **#1 ranked app** on the US App Store and apps featured with **Apple Editor's Note**
- Delivered large-scale applications for global enterprises and US startups, including **LA Clippers**, **Red Sea Global**, and **WiZink Bank**
- **Top 2%** global contributor on [Stack Overflow](#) (**27K+ reputation**), helping **2M+** developers worldwide
- Actively leveraging **AI-assisted development** to enhance productivity and code quality
